

# PUBLIC COMMENT SHEET

## FOR ENVIRONMENTAL ASSESSMENT OF THE PROPOSED DEVELOPMENT OF THE MATTAGAMI LAKE DAM GENERATING STATION

Ontario Power Generation Inc. (OPG) is proposing to develop a small run-of-the-river (approximately 5-7 megawatts) generating station at OPG's existing Mattagami Lake Control Dam (Kenogamissi Falls). The generating station will require a transmission line connection to the existing Hydro One transmission line located 4 kilometres east. Please take some time and provide us with your comments.

Do you have any comments about the proposed development of the Mattagami Lake Dam Generating Station?
